Goal setting is a powerful process for thinking about your ideal future and for motivating yourself to turn your vision of this future into reality. The process of setting goals helps the students to choose where they want to go in life. By knowing precisely what they want to achieve, where they have to concentrate their efforts. They will also quickly spot the distractions

that they can, so easily, lead their astray. Setting goals helps trigger new behaviors, helps guides their focus and helps the students to sustain that momentum in life. Goals also help align their focus and promote a sense of self-mastery. Setting goals not only motivates everyone, but can also improve the student's mental health, level of personal and professional success.

Goal setting involves the development of an action plan designed in order to motivate and guide a student's toward their goals. Goals are more deliberate than desires and momentary intentions. Therefore, setting goals means that a student has committed thought, emotion and behavior towards attaining the goal. In doing so, the goal setter has to establish a desired future state which differs from their current state thus creating a mismatch which in turn spurs future actions. To induce the students to set their goals, Career guidance and placement Cell, Nirmala College for Women organized an orientation programme on "Set Your Goal" and Mr. Satheesh.K, Founder of Explore Academy, Coimbatore has kindly consented to deliver the orientation session on 22nd August 2020 through virtual mode by using Zoom App and 470 final year UG students have benefited from this session.

Students got clear insight on how to set the goals for future and they have also interacted with the resource persons and raised many queries on goal settings and why it is important in life, resource person have cleared all the queries raised by the students. The sessions came to an end with the vote of thanks by K.Infanta Nancy of Bsc.Maths department and 470 students have benefited out of this programme.

Finding employment can be challenging for the students, but the job market can be especially tough for recent college graduates, people re-entering the workforce after time away, or someone who has been in a position for a long time. Competition is stiff; the market is filled with other strong job candidates, too. So how can the students increase their chances for getting a great job in the field? For almost everyone, it starts with a resume.

A resume is a summary of students’ studies and academic qualifications. Although as a student they may have little professional experience, there are many other activities and skills that they can present in student resume. These could include part-time jobs, volunteering positions,

sports, cultural activities or whatever relevant past experiences they may have. Keep in mind that prospective employers are aware that they are boarding on a career for the first time, so employers do not expect a long list of work experience. However, they will want to estimate students’ maturity, motivation, ambition and work ethic, so students should make sure to highlight how college has helped them in develop in these qualities. An effective college resume bridges the gap between an academic college career to a professional one outside the boundaries of an undergraduate university.

Interview is an important selection technique where there is two-way exchange of information either on one-to-one basis or by an interview panel. The interview gets important information from the candidates and can also judge whether or not they can fit into the organisation culture.. To be acquainted with the assessment of resumes, Career Guidance and Placement Cell, Nirmala College for Women have organized Seminar on “How to write resume?

Linkedin Profile Writing Interview Management Techniques" for the final year UG students. Mr.Kaushik Kadir M, Trainer, Explore Academy.The Session begins with the prayer song by the students, Ms.Aju Nelsya of III B.Com have welcomed the gathering and then guest of the session spoken on Successful college resumes highlight the professional foundation students have made during their undergraduate experience, even if it's not in a serious, corporate office. They consider collegiate experiences like academic courses and extracurricular and demonstrate how they translate to the professional world. Students have raised queries on importance points to be included in resumes and tips for attending the Interview. Sir has clarified all the doubts and queries raised by the students. 480 students have benefited out of this sessions and it came to an end with proposal of vote of thanks by K.Infanta Nancy of Bsc.Maths department.

Placement has become the foremost necessity in today's money-oriented world. The students as well as their parents expect good placement opportunities from the institutions they choose. Meanwhile, the colleges ensure job opportunity to almost every student by conducting training programs to sharpen the skills of the students when they attend interviews. Such programs are meant to help the students in different ways. The students are brought up in such a way from their school days that they are trained to face only examinations successfully. Once they go out, they will be facing the real world for the first time and they will be asked to work with that world. In the training programs, the students are taught how to face the external world practically through internships. To attend an interview and become successful, the students must have certain skills like aptitude, presentation and so on.

The placement training programs conducted by the Career Guidance and Placement Cell, Nirmala College for Women, focuses to develop essential job and interview skills for the students thereby enhancing their chances of getting selected in the interview. The most essential element to face an interview is to nurture the confidence of proceeding till the end. Many students lose opportunities due to their lack of confidence. The training programs are designed in such a way to eliminate fear and insecurity among the students and boost their morale. Once they are provided with the much-needed confidence, they are all set to go. The younger generation mostly avoids stage talks and a popular term associated with this preference is called 'stage fear'. With proper training given in the college, fear is eliminated and students begin to understand that it is a pleasure to convey their feelings to the audience and this practice helps the students to face the interviewer with utmost confidence. It gives special verbal training to the students to boost their level of confidence. To prompt the reputation and inevitability of placement to students mind, Career Guidance and Placement Cell, Nirmala College for Women have organized

Webinar on the topic "Placement Training Program" for the final year UG students. The Session begins with the prayer song by the students, Ms.Aju Nelsya of III B.Com have welcomed the gathering and then guest of the session spoken about the training programs, the students are provided with information about various fields and it enables them to choose the one they are passionate about. The lack of information is a serious issue and the placement programs never fails to present even the minute details on what's happening in the world and which domain has a good future and more career options. Students have raised queries on topics to the them. They have clarified all the doubts and queries. Students have benefited out of this sessions and it came to an end with proposal of vote of thanks by K.Infanta Nancy of III Bsc.Maths department.

Pre-placement help to ensure that your prospective employee can safely perform the job they're applying for. Because of this, pre-placement are an important part of the on boarding process – especially for physically intensive jobs. In your business, safety and compliance comes first. The pre-placement is an opportunity for you to meet the prospective agency and discuss your hopes, interests and requirements for the placement. It is also the chance for the students to learn about the agency and what it might be like doing a placement there. It is mandatory for all the registered students participating in the placement process to attend the PPTs. Only those students who attend the PPT would be allowed to participate in the placement drive for that company. There are different types of questions ask in pre-placement talk such as Ask about the various types of training that company provides to its employees, Ask about team's own experience of working in the companies, The things they loved the most and things they thought could be done better. So, with all of that being said, the placement process (or employee placement process or

job placement process) is the process by which a recruiter helps a client fill one of its open positions through the successful matching of the job's requirements to what a potential candidate offers in the form of skills. A pre-employment physical exam assures companies that prospective employees are physically and mentally able to take on the responsibilities of a job. In general, the exam includes checking a candidate's vital signs, weight, temperature, pulse, and blood pressure.

To prepare the students to attend the interviews effectively this session is being arranged for the final year
